#### "Cure" Period:

##### **Q: What is the "cure period"?**

A voter who arrives at the polling place without an acceptable form of photo identification will be given the opportunity to vote a provisional ballot. After completing the provisional ballot, the individual voting will be given written instructions by election officials on how to submit a copy of his/her identification, including email, fax, and address of where the ID should be delivered in person or through USPS or commercial delivery service. A Monday postmark will not be sufficient if the copy of the ID is not delivered to the electoral board **by noon on the Monday after the election.**

Also by noon on Monday following the election, the voter may appear in person in the office of the General Registrar, in the locality in which the provisional ballot was cast, and apply for a Virginia Voter Photo ID Card. At the completion of the application process, the voter may request a Temporary Identification Document. This document may be provided to the electoral board to comply with the identification requirement.
